INSTRUCTION BOOKLET

Warning: Do not use with front or rear projecting T.V. Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES") and this video game. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with this video game, m8sibit games will not be liable for any damage. This situation is not caused by a defect in the NES or this game; other fixed or repetitive images may cause similar damage to a projection television. Please contact your T.V. manufacturer for further information.

This is a work of fiction. Names, characters, places and incidents either are products of the author's imagination or are used fictitiously. Any resemblance to actual events or locales or persons, living or dead, is entirely coincidental.

Precautions

1. **This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart.**

2. **Avoid touching the connectors. Do not get them wet or dirty. Doing so may damage the game.**

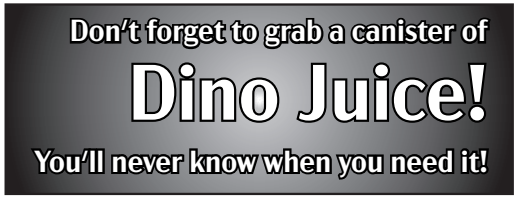
3. **Do not clean with benzene, paint thinner, alcohol or DINO JUICE.**

4. **Always turn the power off before inserting or removing the cassette from the Nintendo Entertainment System.**

5. **The best practise considering the game ROM, is to use the Retroverse or a mapper 30 compatible emulator with battery backup (flash) support for mapper 30.**

This is ND-46 W

One of the World's longest straight roads. It's length is approximately 121 miles or 194 kilometres. Still It's length is no match for cars human has made.
But what about the new frontier? Electric Cars.
Are you ready to take your Open Chord, Dazzle Type Q or Kaya Nitro all the way to the end?



Insert the EV Cruising Game Pak in the NES Control Deck and turn the power on. The m8sibit logo will appear on the screen and music will start to play.

Pressing START will move you forward, but if you wait, you will be taken to the high score screen. Now, press START to get to the car select screen.

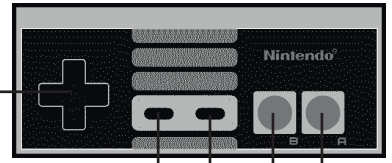
At first you have only one car to choose, but you will unlock another car by playing the game.

Please also note that car named "Kaya Nitro" is not available in (Byte-Off) Demo.

Press start to select your car and you are taken to a music selection screen. Tune in to your favorite song by pressing LEFT / RIGHT and press START when you are ready to start the game.

Buckle Up.
EV CRUISING will start!

CONTROLLING THE ACTION



LEFT / RIGHT
Steer your vehicle left or right

UP / DOWN
browse through initials in high score screen

SELECT
Honk / "Honk boost"

START
Start game / Confirm

BUTTON B
Brake

BUTTON A
Throttle

Honk Responsibly!

THE SCREEN STUFF

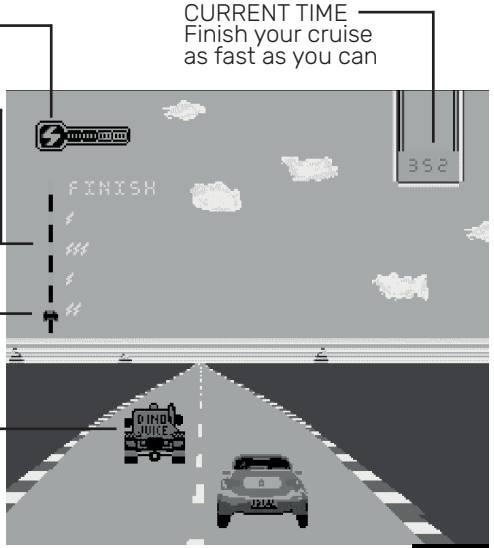
CURRENT BATTERY
Watch out! Don't let it drain.

CURRENT TIME
Finish your cruise as fast as you can

THE MAP
Shows the locations of all Charging Stations. Plus all the tiniest curves along the road ND-46W. You may ask how is such precision even possible on the NES?

YOU ARE HERE

ANOTHER CAR
Try not to crash on these.



CHOOSING A CAR

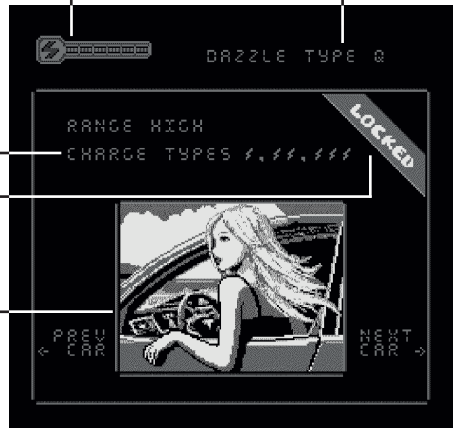
RANGE
Determines how long you can drive without charging.

CHARGE TYPES
There are three charge types. Normal, Dupe 2 and Hyper. Not all of the cars can benefit from the high charging speeds. But all cars can charge in all Charging Stations.

AVAILABILITY
This car is "LOCKED" for now. Unlock this car by cruising with another car.

CAR IMAGE
Pixelated art of the car.

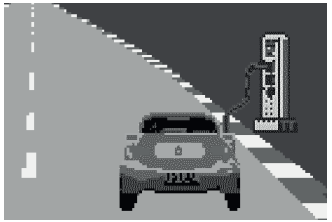
CAR MODEL
Car brand and model is shown here.



CHARGING AND HONK BOOST

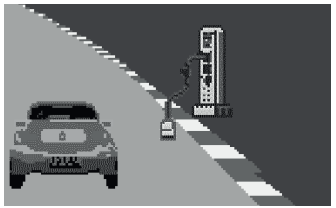
1. PULL OVER TO THE CHARGER

2. CHARGING STARTS ATOMATICALLY



3. TIME YOUR HONKS
DOUBLE CHARGING SPEED!

4. READY TO GO, BUT HEY! DON'T LEAVE THE CABLE LAYING. IT IS RUDE!!



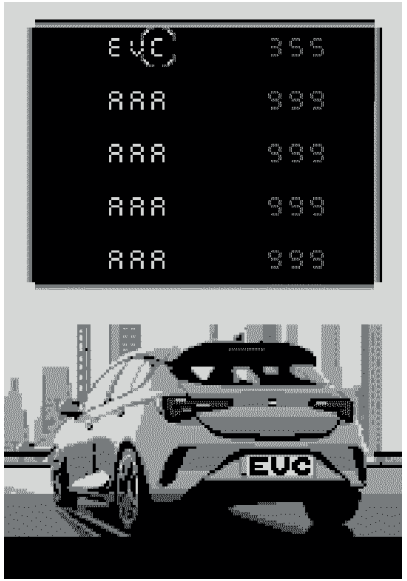
Oh nice! You have been able to finish the game and now there is this purple blinking thing on the screen. That means you have made a new high score. YAY!

Congratulations!

Press UP / DOWN to choose letters and RIGHT / LEFT to select the letter you would like to change. But remember... Only the best EV Cruisers will get their name on the license plate!

WARNING!

High Scores are saved to the cartridges battery memory. Just... Don't do anything dumb like switching off the console while the memory is being written on the high score screen.



After unlocking the "Night Cruising" Game Mode. You can switch between day and night. Press UP / DOWN on the controller to choose either one and press START to go forward.

Flat battery? Fear not!

When your car purrs to a halt, SOS Cat will whisk you to the nearest charging station.

So sit tight and enjoy the ride. It may be the perfect timing to grab some pizza while waiting. And why not? Open the Spotify to listen the Purr Pizza EDM Mix.

CREDITS

Game, Art & Story made by m8sibit Games in 2024 for Byte-Off IV

Music composed by m8sibit Games except "Purr pizza" is composed by my son Arvi at the age of 9.

Powered by NESmaker from The New 8bit Heroes
